

The Galileo Galilei Institute for Theoretical Physics Arcetri, Florence

Galileo Galilei

The Institute organizes and hosts small-size advanced workshops in theoretical particle physics in its broadest sense. During its typical duration of 2-3 months each specific program will host about 10 to 30 participants to be selected among those most active in the field within the international community.

The Galileo Institute, funded by INFN and sponsored by INFN and University of Florence, is located on the historic hill of Arcetri, in a building owned by the University of Florence. Its basic referent is the INFN scientific committee for theoretical physics.

Scientific and management structures are being analyzed by a "Launching Committee" whose invited members are **David Gross**, **Giuseppe Marchesini**, **Alfred Mueller**, **Giorgio Parisi** and **Gabriele Veneziano** (chair).
